Signs of Trouble at Brazil.

Special to the Indianapolis Journal. BRAZIL, Ind., Jan. 29.-Trouble appeared imminent here, last night, when strike sympathizers placed small forpedoes on the street car track, which exploded in rapid succession, causing the guards to rush from the cars with revolvers in their hands order all persons near the track to stand back. Some hot words were exchanged when the guards returned to the cars and continued their journey. Feeling against the company has been extremely bitter among the miners here since Haggerman's death at Seeleyville, as he was well known here and had many friends. The Central Federation has asked all the merchants and citizens to discontinue the use of light and power furnished by the Terre Haute Electric Company. They request the lights to be cut out by next Saturday.

ing it with kerosene lamps.

Special to the Indianapolis Journal. WASHINGTON, Ind., Jan. 29.-Citizens of Washington are making a most earnest effort to secure a settlement of the Baltimore & Ohio Southwestern shops trouble. But little headway, if any, is manifest. The company clings tenaciously to the principle that it must maintain its right to employ and discharge whomsoever it sees fit, and the company's representatives say they fight to make on union labor, but fact that a man is a member of a union does not add to his qualifications as an employe; that good and efficient men can had who are not members of any federation, and it is claimed that when there are places to be filled the first who come will be served, without regard to organization. It seems to be a life and death struggle, and, strangely enough, the company is sustained privately by most of its employes. Organization rules alone have led them to lay down their work.

Labor Commissioners McCormack and Schmid are in the city, and will attempt to secure a settlement of the strike. The men have agreed to accept arbitration, but the company has not given its consent. The labor commissioners hope to secure a concession to-morrow.

BIG CROWD EXPECTED.

Portland Republicans Are Preparing for the Eighth District Convention.

Special to the Indianapolis Journal.

PORTLAND, Ind., Jan. 29.-Preparations are actively in progress for the entertainment of the big crowd of delegates and visitors expected at the Eighth district congressional convention, which is to be held in this city on Feb. 11. The prominence of the candidates and the work which has been done in their behalf, together with the for candidates from all over the State to look after their fences, will combine to bring together a very large gathering. Portland Republicans are alive to the fact that the convention is to be a big affair and are making elaborate preparations for Numerous committees have been appointed to look after the different parts of the work. The executive committee, to which all of the other committees are to report, is made up of D. Covalt, John F. Lafollette and Frank White. Birthday Anniversary of the Martyr Celebrated in Many Ways-Address

by Iowa's Governor.

CANTON, O., Jan. '29.-Routine of the public and parochial schools of Canton was suspended to-day in favor of patriotic exercises in honor of the birthday anniversary of the late President McKinley. Excerpts from McKinley's speeches were read in the schools, favorite hymns were sung and in many buildings eulogies were delivered by local speakers. There was no general suspension of business, but flags were generously displayed about the city and some buildings were decorated. Courts suspended for the day.

To-night Cantonians paid loving tribute to the late President in a memorial meeting at the Tabernacle, which was participated in by people in all walks of life to the number that overtaxed the big enclosure where many of the same people had so often listened to the words of their dren strongly objected to the match. > "The greatest President, who lies buried in your city, needs no prayers, no anthems, no adulation. His fame is safe forever. It is for the sake of those who remain that the monument should be reared, that the panegyric should be spoken, that the prayer should be uttered: Most of all, for the young President upon whose shoulders the burden has fallen-for him I would bespeak the sympathy, the loyalty and the patriotic co-operation of all those who loved and honored the great dead. Against his own desire he was chosen by his countrymen to the place upon which, according to 'God's way,' these burdens and these honors were to fall. He is struggling now, with all the courage of his patriotic nature, with tasks and obligations that those who know them well seem almost too heavy to be borne. Let your prayers follow him; let your good will go with him. No name in America stands more clearly than his for honor, manliness and civic restlessness; no life more clean, no aspirations more lofty. "No doubt severe laws will be enacted against anarchy, but the real safety of our institutions lies deeper than all enactments. It lies in our unalterable resolution to preserve inviolate our heritage of freedom Does the Anarchist really imagine that the American people are so base and craven that they will yield to personal fear? Does he dream that any man whom this great people will choose as chief magistrate will not willingly encounter any risk rather than flinch from his obligations to the Republic? If the path to the executive mansion were strewn with dynamite does he fancy that any man worthy to be chosen as the successor of McKinley is so fainthearted that he would not pursue it at the call of his fellow-citizens? If so, the expectation is indeed illusory. Thank God, the Republic cannot perish. hours in discussion, was that providing for the election of national officers by popular vote. The amendment was finally carried and next year the officers will be elected by popular vote. The amendment was presented at the morning session but was not adopted until in the afternoon. It was discussed by delegates representing every district in the coal fields. At first, the sentiment regarding it was evenly divided, but as the discussion advanced the convention gradually turned in favor of it. The principal point raised in favor of the amendment was that it would do away with lobbying in the convention and eliminate politics by delegates trading votes for ices in honor of President McKinley were certain candidates. It was also pointed out held here to-day by the Farragut and Mcthat many delegates came to the convention instructed by their locals to vote a certain way, but after they were in the convention they were persuaded to change their votes or traded them, so that they did not vote as instructed. When the question was put, President Mitchell was unable to decide and called for a rising vote. tion, McKinley day was generally observed | It seemed as if two-thirds of the delegates were in favor of it, but a count was taken, which resulted in 505 being in its favor and 188 against it. Then a request was made for a roll call of the delegates. In the afternoon, however, this was dispensed with and it was finally settled by adopting a motion submitted by Delegate Ryan that it

membership was re-established. An amendment that was adopted provides for transfer cards between the miners' unions of this and other countries. An amendment providing that when a member desires to leave a mine and secure employment in another, he shall make application to his local for a transfer card within ten days after securing employment and comply with other technical qualifications, was offered. Delegate Reese moved to leave the mater of jurisdiction over miners to the districts in which they are employed, the sense of his motion being to the jurisdiction of a member of the local union having jurisdiction over that mine.

There was considerable discussion over an amendment requiring members accepting positions as superintendents or mine foremen to be provided with withdrawal cards and that within one year it shall entitle the holder to full membership in the union. After one year he shall pay one-fourth of the iniation fee and after two years half of the initiation fee. Several amendments

OPERATORS ARRIVING. Ohio Is Well Represented Among the

Newcomers.

Many of the operators arrived last night for the joint conference to-day. Nearly all of the Ohio operators came in during the evening and about fifteen arrived in a special car over the C., H. & D. They immediately went to the Denison and Hotel English. Among those present are H. L. Davis, ex-vice president of the United Mine Workers, and now commissioner for the Michigan coal operators, is also in the city. It will be noticed in the joint conference that many of the representatives of the coal companies were former officers of the United Mine Workers. Pat McBride was for several years secretary-treasurer of the mine workers and George Harrison was one of the movers in establishing the joint conferences and was a member of the ex-

Little Faith in the Trust.

Job Freeman, one of the most prominent of the Indiana mine owners, said last night that he has little faith in the "coal trust" proposition since Illinois has been taken in. He is of the opinion that, had the matter been left entirely to the Indiana mine owncrs, the consolidation might have been formed. Mr. Freeman says the options given by the mine owners will expire the 1st day of February. He says he has understood that some of the Illinois mine owners put in their options at ten times
